An educational and leisure experience focused on art and applied creativity for 17 to 19 years old. Get inspired and apply!

DINAMIK(TT)AK is an international work-camp for dynamic and active young people worldwide who would like to experience some different and, above all, creative holidays.

The work-camp will take place in **Arteleku (Art and Contemporary Culture Center dependent upon the County Council of Gipuzkoa and located in Donostia-San Sebastián, Spain)** from **16th to 27th July 2007**. It is addressed to 10 high school students who have finished their last year and intend to continue education on applied creativity as a tool for real and social interaction (such as as fine arts, architecture, philosophy, cinema, graphic design, media studies, journalism, fashion, education, etc...).

DINAMIK(TT)AK'07 is part of **CASI TENGO 18 "Nearly 18"** (www.casitengo18.com), cultural action programme devoted to the promotion of creativity, participation and social empowerment among young people as active citizens in the definition of their world, values, interests and concerns.

1. What will we do?

Our goal is to promote the use of creative practices as tools for action, participation and social transformation. We are looking for young people willing to involve themselves in this task according to their interests. For that purpose, we will provide them with all the equipment they might need.

For 12 days, we will meet around group activities, workshops, excursions, debates, films, concerts ... We will also become acquainted with the work of different artists by collaborating with them.

Simultaneously, we will perform activities that combine the use of new technologies (digital video-photograph, internet, weblogs, moblogs, and fotologs) with others of a more plastic nature (performance, fashion, design, screen printing, drawing).

If you are an eager, active and creative person get in touch with us and apply for this unique experience.

2. Application requirements
